DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 21, 22, 24, and 25, drawn to a process, classified in class 264, subclass 513.
 - II. Claims 23 and 26, drawn to a product, classified in class 464, subclass 183.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process, on of injection molding using a core to form the hollow shaft.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
5. This restriction is being written because the claim numbering is incorrect and confusing. It is believed that claim 25 is dependent upon claim 24, and are both intended to be method claims, and that claim 26 is dependent upon claim 23, and are both intended to be product claims. The restriction has been written as if this were the case.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Suzanne E. McDowell whose telephone number is (703) 305-4018. The examiner can normally be reached on M-F 6:30-4.
